SolutionInc

Conference Creo, in conjunction with SolutionIP FLEX®, makes meeting room network management easy by empowering IT staff to plan, configure and deploy customized network settings for each conference through an easy-to-use tool. With Creo, tasks are automated, allowing technical staff to create and schedule network resources for meetings and events at your venue. Let us help you free up time and energy to focus on your important issues of the day instead of focusing on your conference network management.

Here are few details of Creo:

MANAGEMENT TOOL

Our management tool simplifies set-up and ensures that your IT staff are able to plan and create conference networks quickly. We keep things simple for you so you can move onto other priorities.

SCHEDULING

Use Creo's management tool to setup conference network specifications in advance. Everything will automatically start, stop, and reconfigure based on the rules that you have set. Use templates for added ease - you don't even need to be on site!

AUDIT & REUSE PAST EVENTS

Have a recurring event that always uses the same specifications? No problem! Creo allows you to audit, reuse, or copy past events to speed up your set-up time.

ANALYTICS

Reporting on your conference events provides you powerful intelligence on guest usage and movement patterns. This provides you with actionable business intelligence to use for future events.

FULL SERVICE PACKAGE

Choosing to go with our managed and professional services along with our gateway ensures that you have all the necessary tools to provide outstanding Wi-Fi as a service. Continue to be an expert in your industry and let us handle the Wi-Fi.

LOGICAL CONFIGURATION

Creo gives you the flexibility to setup conference Wi-Fi networks how you see fit. Designate a different welcome page or sign-on experience for each event.

MONITOR CONFERENCES

Monitoring and adjusting conferences is easy through our online management portal. You have the ability to monitor usage and make changes on the fly without having to be on site.

CUSTOM CONFERENCE DESIGN

Use preset design templates or create designs from scratch for each conference - the option is yours. Creating a custom experience is quick and easy for every conference.

THE POWER OF FLEX

Creo is an add-on to your SolutionIP FLEX on-premise solution. Easily integrated into your existing solution, you have the ease of conference management with the robust power of FLEX.

24/7 MONITORING & ALERTS

Adding our 24/7 help desk ensures that your users will always have access to a knowledgeable team to aid them in getting online. We are also able to support your IT team by monitoring your network and alerting you of any outages.
